

GET FAST, EASY ACCESS TO STANDARDS ACROSS YOUR ORGANIZATION.

Trying to manage multiple teams, with multiple projects, using multiple sets of standards can be a challenge for any organization. Techstreet Subscriptions is the leading web solution for managing standards that streamlines distribution, improves productivity and saves you money.

EASILY FIND THE STANDARDS YOU NEED

With Techstreet Subscriptions, it's all about power. Powerful search technology. Powerful search functionality. And powerful notification capabilities. When you combine all three, it adds up to one thing – fast, easy access to standards across your organization.

- **Suggested search** is a fast way to find relevant documents
- **Search filters** let you narrow your search for precise results
- **Saved search queries** make it easy to find and rerun complex and favorite searches
- **Product detail pages** streamline your workflow, giving you one-click access to document previews, historical documents, addenda, errata and redlines

“Techstreet Subscriptions is an essential tool for any corporation seeking quick and current access to the latest industry-critical information. Enhanced search options and ease of use make this a powerful service that will save time and increase our employee productivity.”

*- Michael Long, Central Quality Manager
Cameron International*

EFFICIENTLY MANAGE STANDARDS INFORMATION

A clean user interface, easy-to-use workflow tools and flexible notification capabilities – they're all part of our web-based platform. What do they have in common? They allow you to quickly and easily access documents in your subscription, increasing productivity across the board. And the best part? Document updates are right at your fingertips, so you never miss important changes to the standards you use.

- **Subscription update reports** provide instant access to new and updated documents in your subscription
- **Create custom alerts** to get the critical changes to standards you use, as well as notifications on newly released publications that meet your search criteria
- **Home page provides a dashboard** that speeds access to information that is relevant to you
- **Contextual help system** quickly informs you about features and functions in the platform
- **Quickly generate on-demand usage reports** with custom fields for regulatory, compliance and auditing
- **Save hours of time** comparing document changes from one version to the next with Techstreet redlines

SAVE MONEY WITH FLEXIBLE CONTENT PACKAGES

There are so many ways to save money with Techstreet Subscriptions. You only pay for the standards you need, not for large packages or documents you don't need. You control what standards are in your subscription, eliminating redundant purchasing. And with free, automatic updates, you don't pay for revised standards.

- **Building Blocks** – Pre-purchase blocks of documents by publisher and add standards to your subscription as you go
- **Publisher Sets** – Get complete sets or subject sets from over 100 different publishers
- **Custom Collection** – Mix and match full sets, subject sets and individual documents
- **Historical and Redline Versions** – Automatically included at no additional cost when available

AUTHORITATIVE CONTENT

Techstreet serves business, industry, government and academic clients with comprehensive catalogs from the world's leading standards authorities. We cover dozens of industries -- from energy and utilities, to medical devices, manufacturing, construction and more.
